morning but not getting to the house until late it was impossible for me to keep the appointment as I had gotten the message too late.

Received the following information from Mrs. Hall that her neice Frances Vorhees of 85 Gifford Avenue, Jersey City was at her home. Mrs. Hall further states that on a Friday morning she was not sure that she telephoned before she met Mr. Mills or after, but it is her belief that she telephoned before she met Mills. She telephoned from Mr. Hoagland's drug store to Mrs. Vorhees before 10 A.M. and said Ed has gone out the night before and did not return. She does not remember of any other telephone calls.
